Overview¶: ClarityNLP includes a module that locates time expressions in clinical text. By 'time expression' we mean a string such as 9:41 AM, 05:12:24.12345, or something similar.The TimeFinder module scans sentences for time expressions, extracts them, and generates output in JSON format.

Finding Time Expressions — ClarityNLP documentation

With the quick reference guide, you take something that's robust and complex, and distill it down to its essence, but distill it in a way that brings perfect clarity to users. Quick reference guides are like the poetry of technical writing.
