G1 Start Guide

This tutorial covers the basics of how to use the G1 garbage collector and how it can be used with the Hotspot JVM. You will learn how the G1 collector functions internally, the key command line switches for using G1, and options for logging its operation. This OBE covers the basics of Java Virtual Machine (JVM) G1 Garbage Collection (GC) in Java. In the first part of the OBE, an overview of the JVM is provided along with an introduction to Garbage Collection and performance.

Getting Started with the G1 Garbage Collector

In order to get your G1 license you need to study the driver's handbook for the G1 test. You can get the book at Canadian Tire or a Drive Test Centre. When my mother got her handbook (about 20 years ago) the book was only \$5! I paid about \$25 for mine, and I am sure the prices may be higher by now, but you can even view it online.

The G1 command tells your printer to move in a straight line to the location that you specify. You can use this to move just a single axis, or multiple axes at once. Keep in mind that your extruder is controlled just like any other axis, so you can also use this command to extrude or retract filament from the nozzle.
