(PDF) Intellectual Property Rights and Agricultural ...

Role of TRIPS in the Indian Agriculture Sector. In an agriculturally inclined country like India, the question of protecting agricultural intellectual property rights has always been met with intense political debate. India is not a member of the Paris Convention or the UPOV, but is a WTO member, and hence is bound to implement the TRIPS Agreement.

Intellectual Property Rights and the Agricultural Sector

This chapter examines the legal context in which agricultural innovation occurs. It looks at the relationship between intellectual property rights and agriculture. It considers those intellectual property laws which are most relevant to agricultural innovation: plant variety rights, patents, geographical indications and trade secrets.

Intellectual Property and Agricultural Innovation ...

The issue of agricultural-related intellectual property rights is a new realm for many of us. With the ability to get animal and plant patents, copyrights on labels, and research protection, and with the increase in international trade, we are now faced with a whole new set of challenges.
