### Key Controls The Solution For

"I want to thank the people at Key Control Systems for their time and dedication to helping us to better understand the impact and issues associated with keys and dealer plates. With the new KeyBank system customers no longer wait for a sales person to find a key and get a dealer plate.

### Key Control Systems - Your Key Management Solution

'Clever keys' vs conventional keys. Traka's solution is simple. Keys, or keysets, are permanently attached using a tamper proof security seal to a metal iFob. The iFob is an extremely strong nickel plated brass cylinder, which contains an electronic chip, giving it a unique identity. Thus, the keys are effectively electronically tagged.

The core is the part of the lock that you insert the key into. If a key is lost, or if an employee leaves without returning their key, you can remove the core and insert a new one in a matter of minutes. This will prevent the lost or stolen key from working on your locks, and you will not have to wait for a locksmith to come to your site.
