The traditional textbook is Operating System Concepts, by Silberschatz, Galvin, and Gagne. We provide a table mapping reading assignments to the 6th through 10th editions of the book. The newer editions are more up-to-date on some topics, but they are also more expensive.

15-410, Operating System Design and Implementation

Lulu Hardcover (v1.00): this may be the best printed form of the book (it really looks pretty good), but it is also the most expensive way to obtain the black book of operating systems (a.k.a. the comet book or the asteroid book according to students). Now just: \$38.00

Lulu Softcover (v1.00): this way is pretty great too, if you like to read printed material but want to save a few bucks.

OPERATING - National Tsing Hua University

The required textbook for this course is
"Operating System Concepts, Ninth
Edition " by Silberschatz, Galvin, and
Gagne. Most of the material in these
pages was originally taken from the
seventh edition of that book, later
updated to the eighth edition, and then
to the ninth edition.
